... We Train, Equip, Develop Competent and Effective Workforce for the Global Market"

MEET OUR TEAM

Collaboration Fuels Success: Uniting Our Strengths for a Brighter Future!

MATTHEW CRUISE CHAIRPERSON BOARD OF DIRECTORS

On behalf of Macmillan Technical College's Board of Directors, I arn delighted to welcome you to the family of the institution. The MTC Board is determined to improve access to and equity of quality Education, Healthcare training, Hands-on-Skills proficiency, and Technological Training and to ensure that the institution plays its role in the realization of Sustainable Development Goals (SDGs), Vision 2030, health and technology sector policies and the government agenda of creating and providing employment opportunities to the skilled personell. The Board continues to realize the set milestones which contribute to improving the quality and quantity of essential technical skills providers. Inadequate numbers of skilled technical workeforce and care providers have had a negative impact on efforts to expand access and improve the quality services. Towards this end, the MTC Board of Directors under my leadership is determined to critically address the task of defining long-term strategies for addressing the constraints to training and development of quality technical skills. In response to the 2010 Constitutional agenda, the Board will continue to direct efforts at advancing community -oriented programs that respond positively to the country's social and economic development agenda. The board therefore champions for policies that provide an analysis of the internal and external environment and makes strong recommendations on the roles MTC will play in supporting the Government to realize sustainable growth in the white and blue collar economy. The Board is dedicated to offer oversight on the operations and management of the College to ensure sustainable delivery of training in the institution and beyond. I believe that successful implementation of the set policies, will be realized through total commitment of the entire staff, students and above all, all the key stakeholders and partners from different quarters.

We stand at a pivotal stage in our journey is a premier College threshold the and Technology. We are emerged as a new institution that provides skills development and Training Competent Workforce for the Global Market. We are coming up stronger, more resilient, and full of agility in our hands-on-skills training and delivery methods. As we take pride in the wide range of our academic and non-academic programs, our roadmap remain hinged on our mission to Inspire and enable success by providing opportunity, accessible education and innovative training through community involvement and global linkages. We remain committed to the continuous improvement in our pedagogical skills that are contextually relevant and in tune with the offerings of the digital age and the needs for the global market. As we are coming up as a champion for SKills Development, we have developed Centre for Excellence and Learning-CEL at the Macmillan Technical College. CEL endeavors to support academic staff career advancement, enhance student engagement and success, promote teaching and learning excellence, academic leadership, adoption of technological innovations to enhance teaching and learning, academic leadership, and Nurture sustainability and growth of the center. CEL supports all academic staff in teaching and learning development. It provides experiences, opportunities, and resources that support their growth across all career stages and program levels within the College. This in return impacts on student success and

PRINCIPAL & FOUNDING DIRECTOR

contributes to making Macmillan Technical College the preferred referral college in the region and globally. We also have a strong career development and Industrial Attachment Program that not only help students MR. JOSEPHAT M. OCHIENG with their attachments but also provide local and global linkages for employment. We welcome our partners to walk the journey with us as we reimagine teaching and learning in MTC. "We Train, Equip, Develop Competent and Effective Workforce for the Global Market"

Macmillan Technical College's strategic objective is to Train an Effective Workforce for the Global Market. As well, we aspire to position ourselves as an institution of first choice in the training of world class Highly-Skilled-Technical-Graduates. We also strive to equip our graduates with sufficient and relevant Entrepreneurial Skills so as to prepare them to play their role towards Wealth and Employment Creation in the Global Arena. The government through the Ministry of Education, Science and Technology has strengthened the focus of Science, Technology and Innovation and Technical Education policies as underlying the country's national development efforts. In line with the government and the ministry's development agenda, Macmillan Technical College aligns itself with this road map to guide its development agenda for the next ten years as it responds to the Global Needs of the Technical Human Resource.

REGISTRATION AND GOVERNING BODY

Macmillan Technical College is a private institution with registration number PVT-3QU7JZYR registered in Kenya by the registrar of companies under the office of the Attorney General in 2022; with the training mandate Regulated and Accredited by Technical Vocational Education and Training Authority (TVETA) with registration Number TVETA/PRIVATE/TVC/0042/2023 on 22nd May 2022.

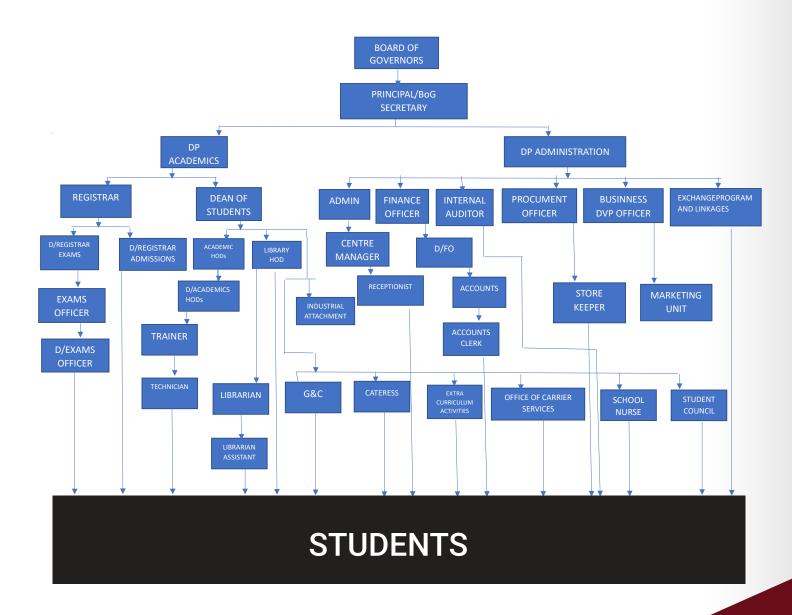

The college has its registered Head Offices at Valley View, Parklands-High Ridge Ward, Westalands Sub-County, Nairobi County-Kenya. The College has other branches in Mombasa, Eldoret, and Nakuru non of which is independent and are all managed under the Head Quarters, Nairobi.

LEADERSHIP AND MANAGEMENT

The Board of Governors is the supreme body responsible for the overall management, developing strategic plan, providing leadership, and ensuring policy guidelines and followed by the institution.

OUR PROGRAMS | COURSES | TRAINING

Macmillan Technical College-MTC was established to intervene and provide training with international certifications & qualifications to learners seeking global opportunities which matches the required competencies in the competitive global market. In collaboration with Award winning accrediting institutions, we assess and award skill certifications to international standards through significant industry involvement and develop necessary frameworks for standards, curriculum and quality assurance. We enhance, support and coordinate private sector initiatives for skill development through appropriate partnerships. Our values focus on three pillars – Professionalism, Quality & Collaboration. MTC is committed to delivering professional training and offering indelible experiences for the trainees who enroll in our programs. Quality has been our constant focus; this positions us to be the global collaborative partner for companies, governments, industry leaders, employers and employment agencies.

THE AUSBILDUNG/APPRENTICESHIP IN GERMANY

Apprenticeship, also known as Ausbildung is a Vocational Training program funded by the German government and companies. This program provides a monthly stipend in exchange for working and learning in a career of one's choice. This program is accessible to participants from all around the world. Within 2-3 years, you will have a Diploma that will allow you to work full-time and even further your education at German State Supported Universities. This program is suited for recent graduates and young professionals. We Support our German Language Students to Get German Apprentice;

- Nursing
- Engineering
- ICT
- Hotel and Hospitality Industry
- Plumbing, Welding, Electrical, etc

ADVANTAGES OF APPRENTICESHIP IN GERMANY

- · Practical experience: One of the most significant benefits of an apprenticeship is the practical experience you gain. You'll work alongside experienced professionals in your chosen field, putting your knowledge into practice in real
- -world situations. · Job prospects: Completing an apprenticeship in Germany can significantly improve your job prospects. The country's VET system is highly respected worldwide, and completing an apprenticeship can lead to job offers both in Germany and internationally.
- · Earnings potential: Apprentices in Germany earn a salary from day one, and the pay increases over time. In some cases, you may even be offered a permanent position with the company you completed your apprenticeship with.
- · You get accommodation; Free Training Under Sponsorship; Train as You Earn to Earn a Diploma Degree in Your Chosen Field
- · Travel with your dependents (Wife/Husband, Children)

APPLICATION PROCEDURE https://applications.macmillancollege.ac.ke/

Macmillan Technical College-MTC strives to admit those applicants who are best prepared to benefit from and contribute to MTC academic community. Admission staff will review your application and the supporting documentation carefully to assess your overall academic preparation. In evaluating your application, the College will consider the following factors:

- Mean Grade scores achieved in High School and other academic qualifications attained...

ACADEMICS & COURSES

Macmillan Technical College is strategically placed to be the leading institution and aims to position itself as one of the best places to acquire skills in the health, IT, Languages, Social Sciences, and Technical professions. We aim to combine affordability with quality delivery of curriculum. In Certified Nursing Assistant Course-CNA, one needs D- and above while German Language is open to anyone with the requisite qualifications needed to work in Germany.

ADMISSION

We have our admissions running in January, March, May, July, September, and November for different courses.

OUR CLASSES

We have full time classes, online classes, part time classes, and evening classes. This is organize as so to meet the needs of different students.

GRADUATION

The importance of graduation ceremony also relates to an occasion for students to express gratitude to their family, friends, and mentors who have supported and encouraged them throughout their academic journey. It is a day to recognise their contributions and the role they have played in the graduates' success.

Macmillan Technical College conducts graduation ceremony twice a year, that is, the Month of July and December of every Year.

ACCOMMODATION & HOSTELS

Macmillan Technical College - MTC students reside in private hostels in Westlands/Ngara We also make adequate arrangements for accommodation for students in our Eldoret, Nakuru and Mombasa campuses.

EXTRA CURRICULAR ACTIVITIES

We're proud to offer an array of extracurricular opportunities led by our faculty/staff, volunteers, and enrichment partners who are deeply committed to the education and development of our students beyond the academic training. Extracurricular activities strive to cultivate a sense of belonging, foster school spirit, increase collaboration with students in different, and provide opportunities for students to connect cooperates, communities, and other professionals beyond the academic spheres. Our objective is to provide every student with the opportunity to take advantage of at least one learning opportunity beyond the classroom that will enrich his/her experience. Ultimately, extracurricular activities stimulate growth as students begin to think critically, overcome obstacles, and then learn from the best. The co-curriculum activities helps students prepare for the work environment.

CAMPUS LIFE

Student life at Macmillan Technical College is all about making connections, finding community, exploring your interests, and discovering new ones. With access to a wide range of clubs, organizations, and activities on campus (and beyond), there's no shortage of opportunities to get involved with! You will also live and learn in the vibrant city of Nairobi, Mombasa, Eldoret, Nakuru, and meet people from different cultural backgrounds. This is the place where diverse people and a saturation of experiences come together. Ideas are born in an Institution like Macmillan College.

NON-ACADEMIC PROGRAMS AND COMMUNITY ENGAGEMENTS

1. FINANCIAL LITERACY TRAINING

Kenya, like many other developing countries, faces a pressing need for financial literacy among its young adults. With high school graduation, these individuals embark on the journey of adulthood, facing numerous financial decisions and challenges. However, they often lack the necessary financial skills and knowledge to make informed choices, manage their finances effectively, and seize employment opportunities. This knowledge gap contributes to financial instability and hampers economic growth. There is an urgent need for a single comprehensive program designed to cater to the diverse needs of young Kenyan adults, whether they plan to pursue higher education immediately or not. This program aims to equip all young adults with essential financial literacy skills, helping them make informed decisions as they navigate the complexities of adulthood, regardless of their educational path. As part of the Community Outreach program done in collaboration with existing community structures, Macmillan Technical College has widely trained a diverse groups of people in different Kenyan Counties.

2. LIFE SKILLS AND BEHAVIOUR CHANGE AND COMMUNICATION

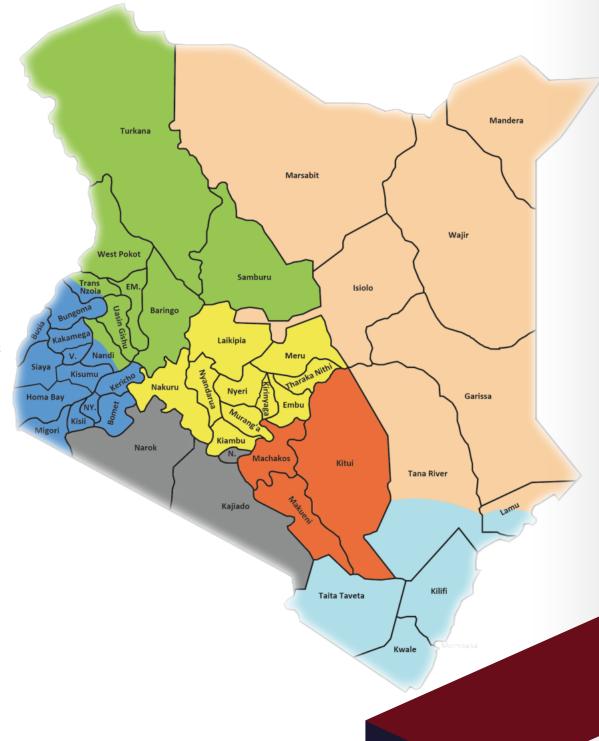

Each year, a lot of resources are spent trying to modify human behaviour. While some intervention strategies are successful, many fall short of their intended goals. Research shows that those interventions most likely to achieve desired outcomes are based on a clear understanding of the targeted health behaviours and the environmental context in which they occur. Social and Behaviour Change Communication (SBCC) has been successfully used by various health promotion programs to improve the well being of target populations. It is a systematic and well-planned process that motivate people to adopt and sustain health promo MTC has planned a five-day training aimed at improving the capacity of service providers, planners and decision makers of health-oriented programs to establish responsive Social and Behaviour Change Communication (SBCC) programs. This will serve to contribute towards the achievement of SDG 3 (Ensure healthy lives and promote well-being for all at all ages). Course objectives To build the capacity of trainees for improving health outcomes through targeted communication strategies aimed at positive behaviour change among key populations.

MACMILLAN TECHNICAL COLLEGE'S PROGRAMS COVERS THE FOLLOWING KENYA COUNTIES:

- 2. Eldoret
- 3. Nakuru
